Professional Gravesite Beautification

Silent Keepers is dedicated to the dignified maintenance and beautification of your gravesites, monuments, columbaria and memory gardens. Realizing many factors may keep you away, we represent you with respect and honor.

Premium Care to Honor Your Family Memories

Silent Keepers is a family business founded by Karen Gorski, who continues to serve as principal caregiver. Karen’s commitment to her work began personally:

After my Great Uncle Wallace’s airplane was shot down in Italy in 1944, his body was returned to Michigan for burial, and my family began to care for his grave. In time, his parents, (my great grandparents) and other relatives were buried nearby. After six generations, our family visits these graves every Memorial Day to remember Wallace’s service, share family stories, and maintain the family graves out of respect for their lives and their importance to ours.

Silent Keepers grew from this ongoing commitment. Karen’s hospice nursing career brings a profound understanding of both the depth of loss and need to remember.

Drawing on our relationships with cemetery, columbarium and funeral professionals and with municipalities and religious institutions, we offer unique, fully-documented services that ensure your wishes are revered for years to come.

Enthusiastic Praise for Silent Keepers Comes from Families, Cemetery Professionals and Community Leaders

“I was so distraught when I saw my parent’s gravesite last year. It looked abandoned, as if no one cared. I did care, a lot, but what could I do living in Texas? Since meeting you, and having the photos of how nice my parents’ gravesite looks, I am just so appreciative. Please know how much what you are doing means to me.”

Patti S.
Texas

“As a family, we have been doing grave maintenance, in honor of our deceased family members, for over sixty years. Karen has been a participant in this display of respect and reverence since her birth. She continues this sacred tradition by her offering of services through Silent Keepers.”

Margaret Trublowski
Founder’s Mother

“Silent Keepers has beautifully maintained a dozen graves for me for the past two years. It is a relief to know that, no matter my schedule, by Memorial Day our family plots will be ready. I have known Karen for many years in her roles as a hospice nurse, mom and neighbor and know that all of her compassion, caring and attention to detail are applied to her Silent Keepers endeavor.”
